

# Unit 9

# GrapeSEED MEMORIES

Let's make words and letters with our bodies!

Right here!

Swallow class learned all about Paleontologists! We dug 'dinosaur bones' out from the sandbox. Then we worked in our groups to put dinosaur skeletons together.

We also learned about how boys and girls can look different in both Japan and in other countries. Look at all the art we did!

We made a Christmas tree with our hand prints!
