

LittleSEED 1

Newsletter

Welcome to the LittleSEED family! Your child is on a joyful journey to learn English from the moment they enter the classroom. They will be exposed to 48 of the most-used sounds spoken in English (phonograms), colors, numbers, expressions, and nearly 600 words through songs, activities, and stories.

Having Fun

English lessons come to life with music, movement, and story through play. Your three-year-old child learns important sounds, vocabulary, and simple ways to communicate each day. At this age, most children mimic and repeat what their teacher says and does. Over time, children will gain confidence. They will begin to speak and sing in English when they are ready.

Classroom Friends

In each Set your child will meet four new friends. These characters will be used to help your child hear and repeat some of the most common English sounds.

What words and phrases is my child hearing?

sit/stand

up/down

Good Morning

Goodbye

Hello, my name is _____ .

Parents have requested more English text than what the student book contains. We are sharing some here for those who would like to follow along with their children.

Story: Rosie Rabbit

While listening to the story, your child can use their finger to follow along with Rosie Rabbit in the story to get the carrot and take it back to the hole.

Out of the hole.
What does she see?
Down the hill.
Over a log.
Now run, Rosie, run!

Around the house.
Under the fence.
Run, Rosie, run!

Inside the garden.
Under the fence!
Outside the garden!
Run, Rosie, run!

Around the house!
Over the log!
Run, Rosie, run!

Up the hill!
Into the hole!
One more carrot! Hurray!

Song: Good Morning! Hurray!

Good morning! Good morning!
Let's have a good day.
It's fun to laugh and sing.
It's fun to laugh and play.
Good morning! Good morning!
Let's have a good day.
I'm so happy.
I'm so happy to see you today!

Song: Goodbye, My Friends

Goodbye, my friends. Goodbye.
I'm sad to say, "Goodbye."
It was a good day, but now I will say,
"Goodbye, my friends. Goodbye."
